

## Division of Aeronautics

Gary Cathey, Division Chief  
(916) 654-5470

### Airport Noise Program & Environmental Review

Philip Crimmins  
(916) 654-6223

- ❖ Administer California airport noise regulations
- ❖ Review and comment on environmental documents for airport related local developments

### Resource Management

Sanaz Javadinejad  
(916) 654-4389

- ❖ Administer operating and capital budgets
- ❖ Administrative and personnel activities support

### Grants and Loans

Tony Sordello  
(916) 654-4718

- ❖ Manage the California Aid to Airports Program, including: Annual Credit Grants, State AIP Matching Grants and the Local Airport Loan Program for capital improvement projects
- ❖ CTC Liaison

### Office of Airports

Jeff Brown, Chief  
(916) 654-4565

- ❖ Conduct public-use airport/heliport and hospital heliport safety and permit compliance inspections
- ❖ Under Federal Aviation Administration contract, conduct inspections and update the 5010 Airport Master Records for specified public-use airports
- ❖ Review and assess new, amended, corrected, and temporary airport/heliport permit applications, including plan check/approvals, site visits, final permit inspections, and issuing of permits.
- ❖ Evaluate proposed K-12 school, Community College, and State building sites within 2-nautical miles of an airport
- ❖ Manage the Helicopter Landing Authorization (HLA) program for evaluation and authorization of helicopter landings within 1,000 feet of K-12 schools
- ❖ Host and maintain the hospital heliport dataplates information system
- ❖ Oversee development of and updates to the California aeronautical chart
- ❖ Work with federal, state, and local agencies on facility, airspace, and other aviation matters
- ❖ Assist and guide current and prospective airport/heliport owners, managers, and consultants with permitting, regulatory, and other aviation issues
- ❖ Respond to State aeronautics-related requests and questions from the public

### Office of Aviation Planning

Terry Barrie, Chief  
(916) 654-4151

- ❖ Develop State aviation planning policies and participate in the Federal planning policy development
- ❖ Participate in intermodal planning and regional aviation planning with cities, counties, MPOs and RTPAs, and the various Caltrans Divisions and Districts
- ❖ Review, comment and develop guidelines for aviation-related activities in MPO's and RTPA's Regional Transportation Plans, Overall Work Programs, and airport master plans
- ❖ Update California Aviation System Plan elements; update the Airport Land Use Planning Handbook; review and comment on Airport Land Use Compatibility Plans and comment on city and county land use decision override letters regarding the ALUCP
- ❖ Analyze aviation trends impact on airport capability, capacity, and demand
- ❖ Aviation liaison for Caltrans Divisions including aviation-related research activities, air traffic information, and goods movement
- ❖ Pursue State and Federal grants to facilitate aviation system advancement
- ❖ Analyze and monitor Federal and State aviation legislation
- ❖ Maintain website for public access to the Division's various functions including, legal requirements, legislation, planning documents, applications and forms, contacts, maps & lists, etc.
- ❖ Disaster Relief Planning and Emergency Management Operations

### Office of Technical Services

Lee Provost, Chief  
(916) 654-3775

- ❖ Develop the statewide Capital Improvement Plan (CIP) for aviation needs and provide airport sponsor guidance.
- ❖ Prepare and Manage the State Aeronautics Program
- ❖ Provide engineering assistance to local governments on airport capital improvement projects under the California Aid to Airports Program (CAAP)
- ❖ Review or manage State general aviation Acquisition & Development grants
- ❖ Develop and manage federal grant contracts awarded from the Federal Aviation Administration Airport Improvement Program to support general aviation
- ❖ Manage AirportIQ System Manager (ASM) database and provide technical assistance to airport sponsors to update airport CIP project lists
- ❖ Conduct public meetings to share information with stakeholder groups in conjunction with Federal Aviation Administration, the Association of California Airports, and other aviation organizations
- ❖ Evaluate land use compatibility and proposed school sites near airports by developing site specific maps using AutoCAD
- ❖ Maintain and update the Airport Pavement Management System (APMS) that identifies needs and estimates capital outlay costs
